

Testimonials

To give an idea about what the NSTC Alumni and others opine on this organization in general and NSTC Programs in particular. Lets browse through a few communications:

Feedbacks

- I am very much impressed by the 'Nanosensitization program kit', the way you have designed it. Frankly speaking, it has lucidly familiarized me with the fascinating world of nanotechnology and has enabled to develop my strong interest in nanotechnology. I therefore heartily appreciate the sincere and more appropriately 'Herculean' efforts of the whole team of NSTC. Excellent work!

Sachin S. Sawant, Enrollment No.0607NS885

- I have gone through Nano Sensitization Kit. Really it was very useful to me in updating my knowledge in the field of Nanotechnology.

Dr. P. ALAGESAN, Reader, Centre for Advanced Research in Zoology, Madurai, Enrollment

No.0807NS947

- Thank you very much for your invaluable and comprehensive Nanotechnology kits (books and CDs), which gives whole gamut of the emerging and invisible field (nanotechnology). The materials provided by you are rendering a great help in my Ph.D. (Plant Pathology) research program. I am sure that the easy to read and understand materials will provide a concrete platform for fostering the knowledge in nanoscience and relevant sectors.

M. Rajesh, Enrollment No. 0807NS948

- Thanks for the beautiful program. I have really benefited from the course & I am willing to pursue some higher science & technology intensive course in Nanotechnology.

Devesh Chandra, Wipro Technologies Enrollment No. 0207NS806

- The material provided is very good & useful. I would like to be associated with this activity.

Dr. S.S. Joshi, Reader in Chemistry, University of Pune, Enrollment No. 0207NS774

- Thank u very much for conducting such useful course. I have submitted my two assignments and the project report as per the requirement of the course.I will be appearing for the on line exam before 31st of this month.Kindly inform the receipt of the project report and inform regarding other submission if any.

Jayakumar Jayaraman, Assistant Professor, Maharashtra Enrollment No. NTP1001108

- Thank you for your mail. I have submitted the assignment I and II of the first batch. My project on Ocular drug delivery is almost complete. Some modification and finishing touches are needed and will be able to submit in a few days. But this course of yours, which now seems to be very exhaustive and

well structured, has opened my eyes to the world of nano and I have begun to see the eye and the human body as though they are placed under an atomic microscope. After 25 years of practicing ophthalmology, I am sure the physiology and pathology of the eye, or even the human body as a whole, will be re-written. What Quantum mechanics did to classical macro-physics, nanotechnology will do to medicine. I am enjoying the course but feel I need some more time especially to understand the basic science part of nanotechnology which is very new to me.

Dr. Ashok Puri, Consultant Ophthalmologist & Head, Jaipur, Enrollment No. BNT1001127

- I am Vignesh. S Enrollment No. : INT1003115. I have completed the ' Introductory Program in Nanotechnology' and I found the program was thought provoking and gave me a strong base over nanotechnology.

Vignesh. S , +2 Standard Student, Chennai

Dear Puneet Mehrotra,

Just a brief note to say how much I appreciated the opportunity to meet with you during my recent visit to India.

I greatly valued the opportunity to meet with so many representatives of the ICT industry during my visit and I am certain that the relationship that exists between our respective industries will continue to go from strength to strength – including in areas such as nanotechnology where new developments are occurring so rapidly.

Thank you again and best wishes.

Yours sincerely,

TIM HOLDING MP

Sub: Nano Technology Sensitization Programme.
Ref: EN No. 0806NS554

Dear Sir,

I am very much thankful to you and the NSTC for enrolling me as a participant for the 'Nano Technology Sensitization Programme'. I am thankfully acknowledging the receipt of the Nano Sensitization Kit.

The content and the course curriculum of this programme are really very informative and interesting. It has been designed very impressive manner.

I am going through the above kit in detail. I shall submit my assignment and the feedback to you in due time. In the meantime, if you have any more information and education materials in this regard, please forward the same either by post or mail.

Thanking you and with kind regards.

Yours sincerely,

(Narottam Sahoo)

Islamic Republic of Iran Broadcasting
Regional Bureau, New Delhi

DATED: 28/01/2008

Mr Puneet Mehrotra,
Director, NSTC, C-56, A128, Sector- 62,
Noida- 201301.

Dear Sir,

The Delhi based bureau of the ISLAMIC Republic of Iran Broadcasting (I.R.I.B.) would like to have your interview for its programme on Nano Technology. We will be delighted if you could spare some of your valued time for the same today at 03:00 PM.

Thanking you in anticipation for kind favour.

With sincere regards,

(M.J. MORADI)
Bureau Chief.
